

Simple Garden Runner

This long narrow runner is made with the Simple Curves tool. A Great way to show off a special piece of fabric or your wonderful quilting!

Finished Size: 53 ½" x 14"

Fabric

Preshrink all fabric and make sure you cut exact 10 ½" strips. This is the width of the tool and will make for more accurate cuts.

Additional yardage may be needed for directional prints.

Add a little bit more color by breaking up C.

| | Actual | Yardage | Cutting Strips |

* Piece together for **two** strips 2 ½" x 60"

Cutting Cukes (cucumbers)

Use 10 ½" x 22" strips.

- Cut **six** Simple Curve pieces from Fabric A.
- Cut **six** Simple Curve pieces from Fabric B.

Cut 6 Cucumbers

Cut 6 Cucumbers

Cutting Squash

Use 10 1/2" x 7" C strips.

- Fold strip in half.
- Align the Simple Curve tool to the edge of the open end of the fabric.
- Cut along the **top** edge of the tool.

**Cutting Melons**

Use 10 1/2" x 8 1/4" C strips.

- Fold strip in half.
- Align the Simple Curve tool to the folded edge of fabric.
- Cut along the **bottom** edge of the tool.

**Assembly**

- Place an A curve on top of a B curve.
The A should make a Smile. 
and the B should make a Frown. 
- Match and pin the center points.
- Bring the *Smile* corners down to the *Frown* corners and match the edges.
- Pin at each side.
- Sew the curves together.
- Continue by adding the C *Melons* and *Squash* in the same fashion with the top piece your smiles and the bottom your frowns. *You'll be flip-flopping your runner back and forth to get your smiles right.*

Add Borders

Use your 2 1/2" A strips. Sew together into two 60" strips.

- Center your strip on each side of the runner, allowing fabric to go beyond the edge on each end.
- Sew together.
- Using your Simple Curve tool round the ends of your strip by trimming off the tips.
- Layer
- Quilt
- Bind

Enjoy!
