

## Curve Master Presser Foot – Machine Compatibility and Adapter Guide

<b><u>Foot and Adapter Choice</u></b>	<b><u>Sewing Machine Compatibility</u></b>
To attach adapter, position the open arch of the adapter over the wire of the Curve Master. Starting at one edge, roll the adapter on from edge to edge.	
Curve Master Presser Foot Alone	Clips on or Snaps on to Viking, Viking Designer I, II, Quilt Designer; Husquvarna, Husky, Baby Lock, Elna, New Home, Janome, some Brother machines, and other machines which use Clip-on or Snap-on feet.
Curve Master + Adapter 1 (Shortest)	<p>Singer Featherweight</p> <p>Pfaff – Disengage dual feed, remove metal ankle and replace with Adapter #1. Attach Curve Master.</p> <p>Bernina – Requires an additional metal adapter from your Bernina dealer or on this website shopping area. Add Adapter #1 to the following Bernina metal adapter:</p> <ul style="list-style-type: none"> <li>• Berninas of the X30 or 12XX series use Adapter #75 non-Classic.</li> <li>• Bernina Artista, Virtuosa, and Other newer models use Adapter #77 Classic.</li> <li>• Bernina 125 and 1008 come with their own adapters so Curve Master simply clips on.</li> </ul>
Curve Master + Adapter 2	Singer Quantum machines and some Brothers
Curve Master + Adapter 3	Singer Slant-Needle machines
Curve Master + Adapter 4	Brother High-Shank machines
Curve Master + Adapter 5	Kenmore Super-High Shank machine
Curve Master + Adapter 6	Brother Quilting Machine 1300 & 1500; Juki Quilting Machine 98.
<p>NOTE: Even if your sewing machine is not listed, for example White, Necchi, Toyota, Morse, Morris, Finster, etc., the Curve Master will most likely still fit. Simply look at your current presser foot in profile, and use the Curve Master parts that simulate that profile.</p>
