Art No. 8401 <LARGE>

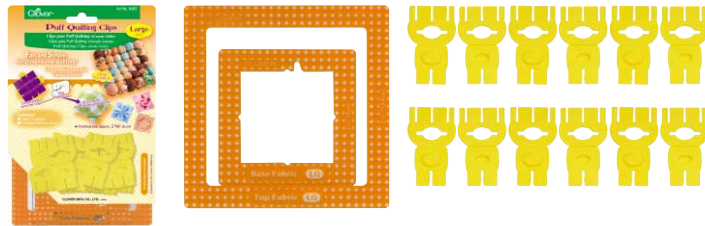

Puff Quilting Clips

*Templates and clips only, without syringe and bar.

Art No. 8402 <SMALL>

Art No. 8403 <LARGE>

Fabric Requirements

Measure the seat of your chair and divide it by the finished size of the puff (Large or Small) to determine how many puffs you will need to make.

For "washability" we recommend 100% cotton fabrics.

Construction & Connecting the Puffs :

See the packaged instructions.

Finishing : Cushion Ties (Optional)

- Cut one strip selvage to selvage from the top fabric 4.5 cm wide
 - Use Clover's 25 mm Fusible Bias Tape Maker and make the tape.
 - Fold in half to double the tape and stitch along the long folded edges.
 - Cut the strip in half (approximately 54 cm) for each tie.
 - Set the cushion on the chair and mark with a pin where you want to place the ties.
- This placement should be directly in line with the chair back posts where you will be tying the cushion.
- Open a puff between the top and base and to the left or right of the pleat, fold the tie in half and insert the fold of the tie into the opening. Stitch closed using the sewing machine for extra strength.
 - Make a knot in each end of the cushion ties to prevent raveling.
